Keep Your Nerve

It is nerve energy that runs the organs of your body. The storage battery is the nerve cells in the brain and spinal cord, and from this battery nerve force is sent out through the system of nerves. To keep the body healthy you must have plenty of nerve force; if you have not, the organs work imperfectly, the circulation is sluggish, digestion bad, appetite poor, kidneys inactive, and aches, pains and misery are the penalty.

You can keep the system strong with Dr. Miles' Nervine, It assists in generating nerve energy; it strengthens the nerves and makes the whole system strong and vig-

ervine to those suffering from nervous prostramedicine and found immediate relief. It soothes and strengthens the nerves, chases away the gloomy and depressing thoughts and gives the sufferer renewed strength and hope. It is a superb JUDGE JACOB SEEMANN.

MR. LONG'S THEME.

Folly of Carrying Dead Weight Discussed at Men's Meeting.

"Drop It" was the theme of an address by Tylrester A. Long at the Y. M. C. A. mee ing for men at the Belasco Theater yesterday afternoon. To illustrate his idea he told the story of the faithful yellow dog which will always pick up the stone thrown by its master and follow him with it, refusing to drop it unless the master gives the order. The bad habits of men were compared to the dead weight carried by the yellow dog, and Mr. Long's advice was for men to "drop" them without more delay. He emphasized the folly of carrying such a dead weight as a handicap through life. He appealed to all men to carry bright and smiling faces and to exemplify the principle of brotherly love, which he be-lieved exists in every man's heart.
